Ride Don't Hide gives thousands of people across Canada the opportunity to connect—to their own mental health, to each other and to their broader communities, while raising critical funds that support CMHA mental health programs and services in their own communities. Ride Don't Hide events are welcoming community events that build awareness, inclusion and acceptance, and where everyone is encouraged and supported to speak openly about their own mental health.

100% of funds raised through rider registration fees and personal fundraising will go to support local community mental health programs.

## Thanks to our champions...

[Urban Systems](#) joins us again for Bike Week. We are proud to partner with an organization who is dedicated to making the place we live more human friendly, and takes care in how they engage with community. It is an award winning company- well respected by both its staff and partners like us! Check them out.

Do you love [Half Pints](#) as much as we do???  
Over the past few years Winnipeg's classic craft brewers have made a delicious radler style beer- a juiced up summer drink perfect for riding bikes- in honour of Bike Week. This year, part of the profit of all radlers purchased in Winnipeg will support Bike Week, so you can enjoy your drink and help us out at the same time!
